paved the way for the reset, and now Trudeau was stealing their thunder.

What's a girl to do?

1. Other Articles On CV "Planned-emic"

The rest of the series is here. Many lies, lobbying, conflicts of interest, and various globalist agendas operating behind the scenes, obscuring the "Great Reset". The Gates Foundation finances: the WHO, the US CDC, GAVI, ID2020, John Hopkins University, Imperial College London, the Pirbright Institute, the BBC, and individual pharmaceutical companies. Also: there is little to no science behind what our officials are doing; they promote degenerate behaviour; the Australian Department of Health admits the PCR tests don't work; the US CDC admits testing is heavily flawed; and The International Health Regulations are legally binding. See here, here, and here. The media is paid off, and our democracy is thoroughly compromised, as shown: here, here, here, and here.

We are facing the greatest economic crisis of our lifetime.

Canada’s Conservatives led by Erin O’Toole will bring back certainty and stability.

.

The Liberal agenda is to launch a risky experiment with Canada’s economy.

.

Justin Trudeau says, “We are all in this together.” But, under the Liberals, Canada is more divided than ever before.

With the Liberals, it’s the haves over the have-nots.

.

It’s Bay Street over Main Street.

.

It’s those with a salary, benefits, and a pension over those without.

.

It’s those with Liberal connections over the outsiders who have to play by the rules.

.

Instead, Erin O’Toole’s Conservatives will fight for you and your family, and the countless Canadians left behind by the Trudeau Liberal government.

The Conservative Party of Canada completely supports the “Great Reset”. In fact, they coined the term: “build back stronger” as a way to show how cool and edgy they are.

To be clear, Michelle Rempel-Garner and the CPC aren’t upset that the Great Reset is taking place. They just pretend to be because Trudeau and the Liberals will get credit for it.

O'Toole calls for 'war footing,' MacKay suggests tax changes to address COVID-19

OTTAWA — Conservative leadership candidate ***Erin O’Toole called Monday for the country to be placed on “war footing” to combat the spread of COVID-19***, the latest escalation of rhetoric in the race now thrown into flux by the rapidly evolving crisis.

O’Toole said the ***federal government should invoke the Emergencies Act so the federal government can prohibit travel, enforce self-isolation and control assemblies, while also mobilizing the military*** to back up the health system.

> "Now is the time to ***put our government and our economy on a war footing***, with leadership from the top," he said in an email to supporters.

When O'Toole was running to be the leader of the CPC, he openly advocated for even more draconian measures that what Trudeau had done. So much for conservatives valuing freedom.

distribution;

.

(c) federal public health guidelines and the data being used to inform them for greater clarity on efficacy;

.

(d) current long-term care facility COVID-19 protocols as they pertain solely to federal jurisdiction;

.

(o) the government's ***contact tracing protocol***, including options considered, technology, timelines and resources;

.

(p) the government's consideration of and ***decision not to invoke the federal Emergencies Act***;

Yes, Michelle Rempel-Garner is demanding to know why (among other things), the Emergencies Act hasn't been invoked. She also supports contact tracing, and rapid test kits (even though the tests don't work). These are clearly the actions of someone who supports the Great Reset deep down. No mention that when the long term care deaths are excluded, the death rate drops to almost nothing.

At no point do Conservatives complain that these measures are excessive, or question the highly dubious "science" behind it. The only objections are in how it's carried out.

Can this woman really be trusted, given the glowing review the World Economic Forum has given to her? Keep in mind, WEF is one of the major pushers of the reset.

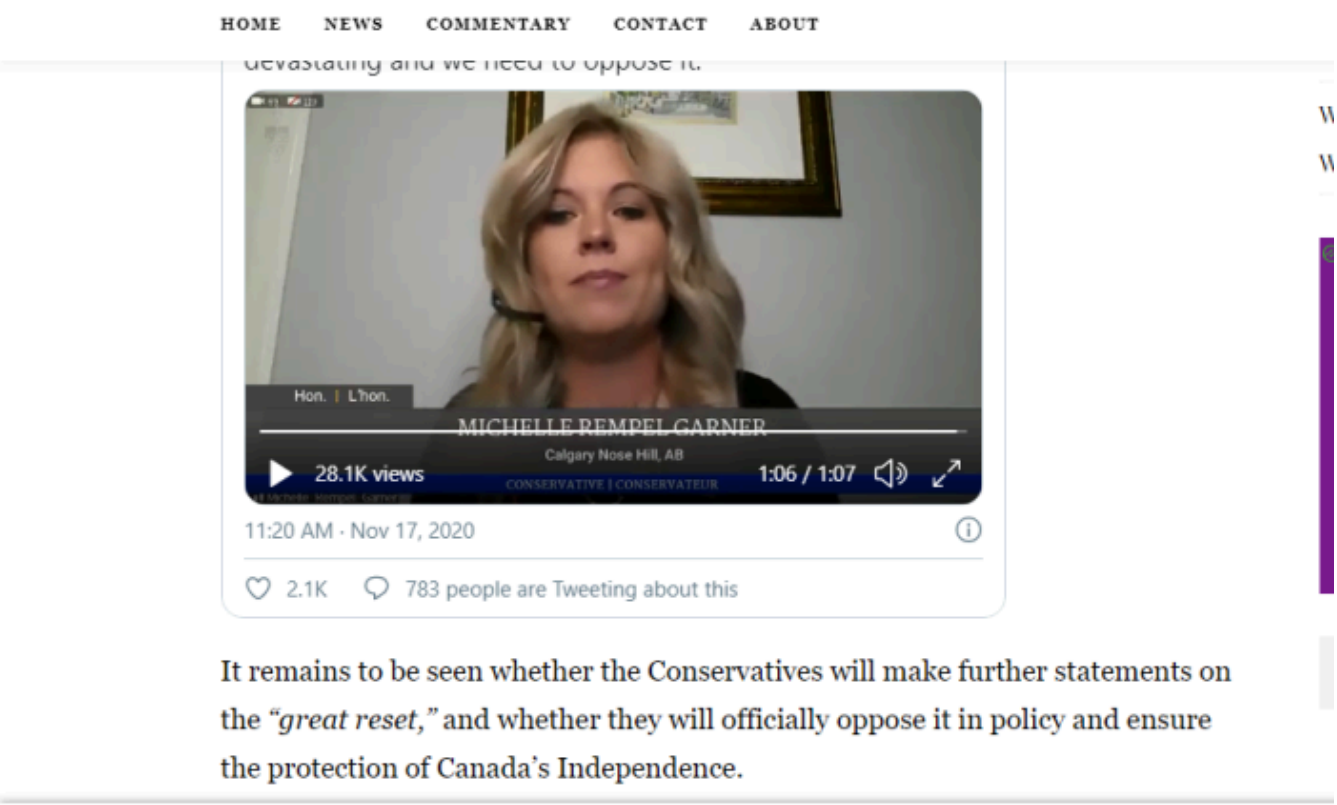
6. Agenda 2030 Signed In September 2015

> In ***September 2015, Canada and all other 192 United Nations Member States adopted the 2030 Agenda for Sustainable Development*** at the UN General Assembly. This initiative is a global call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030.

> The 2030 Agenda presents Canada, and the world, with a ***historic opportunity to positively shape how societies of tomorrow grow and develop sustainably and inclusively*** to the shared benefit of all.

Canada signed onto Agenda 2030 on September 25, 2015. This was less than a month before Stephen Harper was voted out of office.

7. Pierre Poilievre's Bogus Petition



It remains to be seen whether the Conservatives will make further statements on the *"great reset,"* and whether they will officially oppose it in policy and ensure the protection of Canada's Independence.

Whereas Justin Trudeau told a United Nations conference: "This pandemic has provided an OPPORTUNITY for a RESET. This is our CHANCE to accelerate our pre-pandemic efforts to REIMAGINE economic systems... ."
Whereas global financial elites have called for the same "Great Reset", which would reengineer economies and societies to empower the elites at the expense of the people;
Whereas Canadians must fight back against global elites preying on the fears and desperation of people to impose their power grab.

Lovely petition, but again, the Conservatives were in power when Agenda 2030 was launched. The "Great Reset" is just Agenda 2030. And why is he still flying a foreign flag in his office?

> Founded in 1967 with the express goal to stand up for Canadian taxpayers and to champion small-C conservative values, The National Citizens Coalition is made up of a dedicated group of individuals working together to ensure the continued success of Canada's largest ***non-partisan organization***.

Keep the term non-partisan in mind. While claiming to be independent and non-partisan, the NCC leaves out that Stephen Harper (yes, the former Prime Minister), used to head the

organization.

Fernando acts as cheerleader for Rempel-Garner, in opposing the “Reset”. However, he fails to mention that the former head of National Citizens Coalition, his organization, signed Agenda 2030 in the first place. That agreement helped drive the Reset in motion. He also omits Rempel-Garner’s award from the World Economic Forum.

An epic conflict of interest that isn’t disclosed.

9. Would Harper Have Pushed The Great Reset?

This is impossible to know for sure. However, looking at his past actions, it’s clear that he had no real concern for Canada’s sovereignty or well being. Here are some examples:

(a) He domestically implemented Agenda 21
(b) He fought COMER to keep the banking cartel intact
(c) He added over $100 billion to the national debt
(d) He signed FIPA without allowing full debate
(e) He set “emissions targets” regarding the climate change scam
(f) He signed Agenda 2030
(g) He left the loophole in the Safe 3rd Country Agreement, allowing illegal aliens to enter from the U.S.

Would Harper and the Conservatives be implementing the “Great Reset” if they were still in power today? Just an opinion, but yes they would. Michelle Rempel-Garner is just angry she doesn’t get credit.
